2. I will follow at least the minimum recommended behavioral security policies and procedures for my property according to CPTED principles and any additional safety policies that apply in a rural area.
3. I will keep an inventory of personal property for each room, outbuilding, and vehicle, including the item description, brand, model number, serial number, purchase date, and purchase price, if known.
4. Members of my household will keep keys and personal property secured, and all vehicle and building doors and windows closed and locked, according to CPTED principles.
